## Deck Yard Low Voltage Lighting DYL-A001A 9W CREE Integrated LED Directional Lights

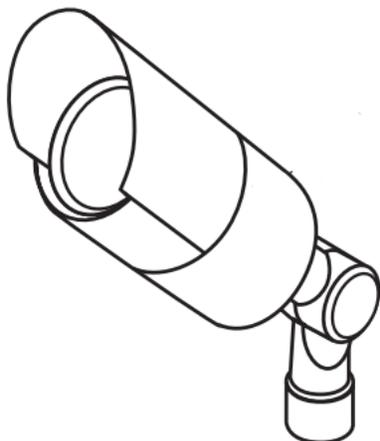

### Product Description

Deck Yard 9W Cree spotlights are professional grade integrated LED fixtures perfect for any uplighting application.

Constructed of high quality aluminum, the DYL-A001A incorporates a built in driver and uses the body as a heat sink. The design allows the LED chips to run at a cooler temperature which equates to a longer life; up to 60,000 hours! Constructed and double silicone O-rings under the shroud, the DYL-A001A Spotlight is water-proof. The luminaire is field serviceable and has an adjustable knuckle to aim light where it is needed.
